#### PRODUCT DESCRIPTION

- Adopting semi-automatic lateral swinging arm to change tyres.
- Tyre changer just for motorcycle tyres.
- Adjusting mobile slider to be suitable for different rim ranges.
- The working head is plated hard chrome on the surface through high frequency sudden fire, this kind of treating processes insure the intensity, toughness and abrasive resistance.
- The tools touching rim directly like changing working head, jaws, crowbar and spade are all equipped with protector, these protectors ensure no hurt to the rim.

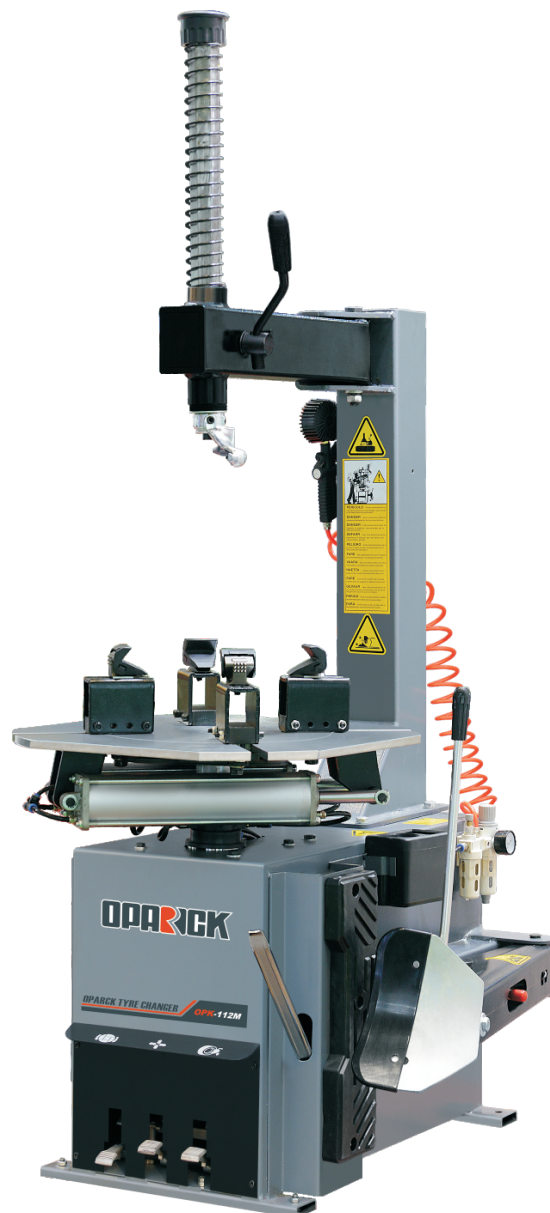

# OPK-112M

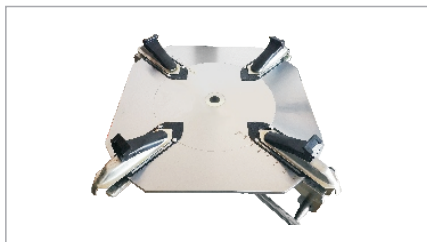

## MOTORCYCLE TIRE CHANGER

### Technical parameters

Model	OPK-112M
Power supply	110V/220V/380V 50/60HZ
Motor power	0.8KW/1.1KW
Operating pressure	0.8-1MPa
Outside clamping	5"-23"
Max.wheel diameter	38"/960mm
Max.wheel width	3"/15mm
Bead break force	2500Kg
Operating pressure	8-10bar
Noise	<70db
Net/Cross weight	180/200kgs
Packing size	1000×800×950mm

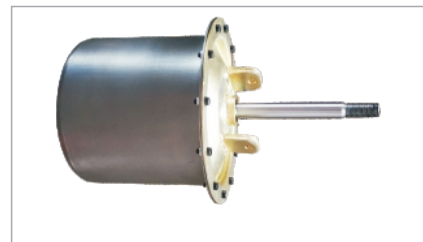

### Detail

Special adaptor for motorcycle 3jaw position adjustable

High-power motor

Large Diameter big piston cylinder
